PROCESS-2
400 participants
HC 200 · MCI 150
Dementia 50
3 tasks per session:
SFT, PFT, CTD
Train 320 · Test 80
A. Shortcut audit
• demographics, channel, duration
• second voice (pyannote, ECAPA, blind listening)
• transcription conventions
• annotated vs measured pauses
B. Annotation-free baseline
• Whisper → distinct valid words (SFT, PFT)
• VAD pauses (fluency, CTD)
• HC norms (Huber) → G, D
• weighted LR, norms refit in every fold
Evaluation
• 5 × 5 CV on train
• paired comparisons
• official test: evaluated once, bootstrap CIs
• fairness by sex, sensitivity (2nd voice)
